WEDNESDAY JANUARY 14

CANNABIS TESTING DEMONSTRATION
by Sage Analytics (USA) + DEBATE

AT 19:30 FREE ENTRY

Cannabis College
Oudezijds Achterburgwal 124
Amsterdam

*Sage Analytics founder Randall Kruepp will demonstrate '**The Luminary™ Proler**'; a new solution for cannabis testing. This desktop device enables cost-effective, real-time potency and freshness testing and instant, accurate measurements of THC, CBD and CBN on-site, by any operator.*

*The evening is hosted by the VOC (Union for the abolition of cannabis prohibition) and includes a debate about different test methods and the **15%** THC limit that the Dutch government wants to introduce.*
